

Year 7 Literacy and Numeracy Catch-Up Premium Funding 2018-2019

Allocated Funding - £7,000

During the teaching of English and numeracy the pupils are given additional support. Our level 5 TA's lead additional intervention groups for those falling behind with their personal targets. We also run 'Fun Fit' and 'Write Dance' interventions targeting the Year 7 students who require additional support with pre-writing skills.

Last Year's Allocated Funding - £4,500

Last year we provided intensive support and training to our teaching staff to ensure a range of teaching strategies were employed to teach reading and writing through phonics.

The pupils who required support in writing received 'Write Dance' and 'Fun Fit' interventions. Those pupils who were falling behind their reading targets had time with our PAT dog to increase their desire to read.

We provided additional 1:1 and 2:1 support in numeracy and literacy to ensure confidence and best learning was achieved.

We will continue to monitor the progress of our Year 7 pupils by termly analysing their progress through our assessment systems, monitoring attendance and discussion with the class teams. This will be reported to the Governors in the termly Head Teacher's report.
