

Welcome back. We hope you all had a great Christmas! In L4 we have an exciting term planned with a full and varied curriculum.

Literacy

Fiction-

This term we are reading Harry Potter and the Philosopher's Stone. It would be great if you had any books at home about magic and sorcery if you could read them together. We very much enjoyed going and finding wands in the woods as a class. If you find one whilst out for a walk we'd love to see a picture of it so we can talk about it in class

Topic:

In Geography we will be learning about rivers and the UK coast. If you have any pictures of family trips to either of them we'd love to see them.

Throughout this term in Science we will be learning about habitats and life cycles. It would be wonderful if you could go outside and explore what you can find in your locality.

Numeracy

Number - We'll be doing lots of work on recognising numbers, addition and subtraction this term. There are some great games at TopMarks.com which would be perfect for playing at home.

It would also be great if you could do weighing and measuring whilst cooking together, maybe count shapes whilst out shopping or at the park and talk about time.

L4 Homework ideas

PE will be on Tuesdays until February half term and then on Thursdays until Easter
Swimming on Friday this half term - reminders in the Home/School diary.
PE kits will be sent home at the end of each half-term.

Please send reading folder & home/school diary into school every day.

Thank you.
