

# Homework Ideas U1

## Life skills promoting functional maths and English skills

- Helping to make a snack- following instructions, measuring/counting ingredients
- Trip to local shop - reading signs and labels of specific products, looking at cost and paying for items, using money, adding up prices

## English

- Reading information from text for example ingredients on cereal packet
- Watching Newsround and then answering questions about it
- Write in a daily log for a week, read written information out loud to one other person

## Maths

- Counting specific items around the house, adding up those items or taking away a particular amount of other items, for example 6 pairs of shoes and 3 newspapers
- Participating in a card game involving numbers, for example UNO, playing cards
- Playing dominoes

\*\*Please note that not all activities will be appropriate for all learners, adapt where applicable, I would recommend learners complete at least one activity from each section every two weeks
