

Welcome back. We hope you all had a great Easter! In L4 we have an exciting term planned with a full and varied curriculum.

## Literacy

### Fiction-

This term we are reading *Charlie and the Chocolate Factory*. Now I'm in no way suggesting you send in lots of chocolate but if you do find some unusual ones we would love to try them. If you want to watch the films that is fantastic as it would give you child advanced knowledge of what will be coming up! The Twinkl website has some lovely free resources so if you want to download and design a chocolate bar wrapper, brill!

### Topic:

In History we will be learning all about the Victorians. If you get the chance a great place to visit is the work house in Southwell. Lots of really interesting fact. Throughout this term in Science we will be learning about changes of state. It would be brilliant if you could investigate this at home by freezing some water and then watching how it melts. Other experiments could include watching bath bombs change from solids to liquids and maybe making jelly together.

## L4 Homework ideas

PE will be on Tuesdays and as well as the usual PE could you please send in a cap for warmer weather.

PE kits will be sent home at the end of each half-term.

## Numeracy

Number - We'll be doing lots of work on recognising numbers, addition and subtraction this term. There are some great games at [TopMarks.com](http://TopMarks.com) which would be perfect for playing at home.

We will also be introducing time. Perhaps you could play some games together where you see how many times you can do something in a minute as well as looking at different clocks you might have in the house.

Please send reading folder & home/school diary into school every day.

Thank you.
