

U2 Homework Ideas – Summer Term 2018-19

Here is some information about what is to come over the next term and ways you can support students at home.

English

This term we will be consolidating our speaking and listening, reading and writing skills.

AQA students will take part in:

- Planning, carrying out and evaluating a charity event
- Skills development – using paragraphs, using conjunctions, comparing different texts

Learners working toward SOLAR targets will be:

- Practising letter and word recognition. This can be done by looking at labels, magazines and other signs in the environment.
- Developing speaking and listening skills, following instructions and answering questions related to something they have watched or listened to

Maths

AQA students will be:

- Practising skills for column addition and subtraction, multiplication and division
- Money – making amounts using coins and notes, giving change, solving simple money problems

Learners working toward SOLAR targets will be:

- Recognising 2D shapes
- Learning to recognise and order numbers

Science

This term students will be learning how to make predictions and explore patterns in data.

This will include:

- Making family trees
- Exploring family size today and comparing it with other generations
- Predicting patterns of family size for the future

SMSC

Some of the students will start the ASDAN PSHE programme. This will include:

- Evaluating websites that provide teenagers with advice on living healthy lifestyles
- The banking process and budgeting

Those students who are not working towards ASDAN will be:

- Learning about different types of relationships

R.E.

Learners will be learning about pilgrimages and why this is important to people who follow different faiths and religions

Computing

This term will be about reinforcing learning on E Safety. This will cover:

- Identifying how we use technology at home
- Making sensible decisions – what to share/not to share
- The concepts of “public” and “private”
- How to tell if information is real or fake
- How to report/block information on a range of social media sites (for specific students)

Careers

This term’s careers focus is decision making and planning. This will be incorporated into the other subjects.

PE

U1 and U2 will combine to take part in team games and athletics. This will include:

- Tennis
- Badminton

Life Skills

We will continue to develop basic cooking skills and knowledge around health and safety in the kitchen.

Thank you for your continued support.

Clare, Kate, Sarah, Catherine, Cherry, Suz and Naomi
