

# Class 1 and the World of Mini beasts

Welcome to Newark Orchard School Rudi, Ivory, Dominic and Oliver and welcome back Charlie and Jonas. This half term we have been investigating and learning about mini beasts.

We have enjoyed the book Superworm and have made our very own worm garden.

Worms look good enough to eat so we decided to use plastic ones instead.

We have also made egg box spiders and webs using a silver paint and a salad spinner.

## Homework ideas for half term

- Make a pebble mini beast pet (we have made these in class too)
- Take an old spoon on your next visit to the park and have a rummage amongst the bark.

How many mini beasts can you spot? Take a photo and share on our school Tapestry

- Watch some of the mini beast video below
- Collect some conkers and give them a polish. They look fab in a bowl and will keep the spiders away
- Learn the 'caterpillar' crawl
