

## Class 7

### Homework Ideas

- In science our topic is Evolution and inheritance. Talk to parents and carers and have a go at creating your own family tree.
- In English there is a focus on plays. Talk to your carers/parents about whether they have seen any plays. Which ones did they see and where? Is it something you could do as a family in the future?
- We are currently in lockdown (really!?) and therefore going out is limited. Look out your bedroom window and sketch what you can see.
- Continuing with the theme of writing plays (and our last terms topic of recycling), make a puppet theatre out of a shoe box. Make some card board stone age characters and create a short play.
- Where possible work with a friend. Chat online, email or phone each other. We often work best in the company of others.
- Literacy- list all the jobs people had to do in the Stone Age- can you list at least 10 jobs?
- Create types of paint by crushing berries, grass, leaves and other natural materials. Use the paint to make a picture.
- Create a poster with your 10 favourite Stone Age facts and present it to your class.
- Imagine you have gone back in time to the Stone Age. You can take one piece of modern technology. What would you take and why?

We hope you have an enjoyable & successful term. Should your parents/carers wish to discuss anything about your education and wellbeing tell them not hesitate to email or phone. 😊
