

ABC

English

This term's Topic is Farm animals followed by Safari animals! As always we would love you to read a whole host of books together 😊 If you have toy farms or animals at home we'd love some pictures of your child playing with them to discuss in school and share with their friends. The same goes for any family trips out! Let us know what you've been up to so we can share and chat about it in school.

In maths, we are continuing our learning about numbers, patterns and shape. Continuing to practise counting at home is a great help and let's see how high you can go!!!

Maths

Some other things we'd love to hear about happening at home are;
Physical activities! Have you been to a trampoline park or a play park recently? We'd love to see pictures and share. In school we are working on our catching and throwing skills ready to play a game of rounders so if you have a ball it would be great to hear they've been practising at home.

Other

In Science we are finding out all about habitats. Do you have a pond, a river or a wood nearby that you could go explore together and let us know about? Maybe take a pencil and paper and do some rubbings of the different rocks and trees? Or create a tick list of all the animals you found.

In RE we are learning all about the different communities we are part of! Is there a community you are part of that you'd like to share with us?

In art we are painting different animals in the style of different artists. Could you create an image of an animal using a medium of your choice? Crayons, paints or even things you can find in nature!
