

Welcome to Class 2's Homework Page

Our topics this term are 'Healthy Me' and 'Holidays'. Here are some activities you may like to try at home, we would love to see any pictures on tapestry too. Have fun.

We will be reading lots of different stories.

We will be learning all about the things which keep us healthy, such as healthy food, keeping clean, looking after our teeth and relaxing. Watching clips of children brushing their teeth is a great way for children to start to pay attention to this, especially if it comes with a song!!

Brush your Teeth- Super Simple Songs.

Here is one to look at:

We are going to be exploring foods, clothes, traditions and landmarks from different countries around the world. India, Mexico, France, Kenya. You could try to prepare foods for the family from any of these countries?

We are also learning about how to care for our beautiful earth. We will be recycling, planting flowers, making bug houses and bird and butterfly feeders. Perhaps you could allow your child the opportunity to put things in the recycling bin? They could help you to feed the birds or help in the garden.

We will also be looking at pictures of ourselves as babies. Could you show the children some of their baby pictures? We will be sending a letter out soon to ask for you to send us in some pictures and we can't wait to see them!
